1. About This Release

Centrify Deployment Manager is a part of Centrify Infrastructure Services. It enables you to identify non-Windows computers within your environment and analyze their readiness to integrate with Centrify DirectControl agent for *NIX and Active Directory, as well as perform deployment of Centrify Infrastructure Services to these computers.

You need to download the latest Centrify product catalog from Centrify Download Center before you can use Centrify Deployment Manager to do deployment.

The latest copies of release notes and documents are available online at <http://docs.centrify.com>.

Centrify software is protected by U.S. Patents 7,591,005; 8,024,360; 8,321,523; 9,015,103; 9,112,846; 9,197,670; 9,378,391 and 9,442,962.
